

Productions Not Affiliated with Warner Bros.

HANDBOOK

Call WB Safety (818-954-2890) when:

- 1.
Opening your production office or scheduling your first tech scout. We would like to discuss your production's safety program and obtain information regarding safety while at WBSO.
- 2.
Planning a major stunt, car chase, or special effect.
- 3.
Helicopters, aircraft, watercraft, motorcycles, all-terrain vehicles (ATV's) are used.
- 4.
Prior to any use of Unmanned Aerial Vehicles or Unmanned Aerial Camera Platforms (i.e. drones).
- 5.
Planning to film in, on, or around water.
- 6.
Intending to drain the Lagoon, Stage 15 or Stage 16 water tanks, or Ranch pool, or any other filming pool.
- 7.
Contemplating demolition of any major set or structure.
- 8.
Drums of hazardous materials not associated with your production are present upon arrival.
- 9.
Production employees may be exposed to safety hazards or hazardous materials that are present as a result of the proximity to another employee, production company, or vendor.

- 10.
Scaffolds three stories (36 feet) or higher are being constructed.
- 11.
Cranes and equipment exceeding 10,000 lb. are used on a soundstage.
- 12.
You have questions about the load-bearing capacity of a stage floor, truss, or backlot platform (roof, fire escape, etc.)
- 13.
A Cal-OSHA or other governmental agency inspector visits your stage or location. **The inspector should be asked to wait, if possible, until a representative of S&EA is on site. (See Inspection Procedures for OSHA and Other Regulatory Agencies on the following page.)**
