## Safety Program Information for Key Department Heads

The following information is for your specific position and is provided to help you understand your part in your Production's **Occupational Health and Safety Program**.

## **Responsibilities of Key Department Heads**

The Department Heads/Supervisors are responsible for supervising, training, performing periodic inspections, and ensuring their crews compliance with all applicable safety rules and regulations.

### **Production Start-Up**

- Visit www.canadianproduction.com to familiarize yourself with the safety information available, (AMPTP and Actsafe Safety Bulletins, Tool Box Talks, etc.) and to read the Production Safety
  Manual
- 2. Conduct or arrange safety training for your crew who have not been trained. If you need help determining training requirements or arranging training, call the **Production Safety Representative.**
- 3. Conduct and document safety meetings for your crew on the prior to starting the first day of work at a new site:
  - a. Provide Young and New Worker Training when appropriate.
  - b. Explain the safety program and tell them to visit www.canadianproductions.com.
  - c. Ensure they have received the BC General Safety Guidelines and signed the acknowledgment form
  - d. Discuss the safety aspects of the day's activities and the particular hazards of the site.
  - e. Discuss elements of the **Emergency Plan**, such as the location of emergency equipment, exits and telephones on all stages and interior set and off-lot locations, and explain emergency procedures such as evacuation plans in case of fire (if not covered by the 1<sup>st</sup> AD.) The information for this meeting is on the **Emergency Plan Meeting Form**.
  - f. Discuss safety precautions to be followed around any specialized equipment that may pose a potential hazard (e.g. insert car, process trailer, cranes, booms, specialized rigs, etc.)
- 4. Conduct or arrange safety training for your crew who have not been trained:
  - a. Hazard Communication Training for chemical containing products.
  - b. Personal Protective Equipment for eye, ear, respiratory, etc. hazards.
  - c. Fall Protection Training for workers exposed to heights.
  - d. Special tools, equipment, or vehicles used.
  - e. Consult with the Production Safety Representative to determine the specific training needs of your crew.
  - f. Document all training and forward to the Production Office Coordinator.
- 5. Conduct additional safety meetings in the following situations:
  - a. Prior to rigging or testing of any specialized equipment.
  - b. Anytime crew is exposed to a hazard (e.g. special products, pyrotechnics, etc.).
  - c. Anytime new crewmembers join the department.
  - d. Anytime there is a change in location or work site.
  - e. Anytime a new process is introduced (e.g. special foams, chemicals, tools, etc.)
- 6. Distribute safety literature:
  - a. Give the General Safety Guidelines for Production (Form 1); written, orally or posted to all

those who report directly to the site for hire; such as, casual hires, independent contractors, etc. Have all employees sign the *Employee Acknowledgment* and forward them to the **Production**Office Coordinator

- b. Distribute safety literature on specific hazards to your crew (e.g. appropriate clothing and shoes, aerial platforms, etc.).
- c. Issue special literature if requested by crew members (e.g. material safety data sheets on chemicals, fogs, paints, etc.)
- 7. Document all Occupational Health and Safety Program activities:
  - a. See to it that all safety meetings held throughout the day with crew are noted on the daily Production Report, including new arrival, rigging, testing and changing work site meetings.
  - b. Any bulletins or special correspondence are to be forwarded to the **Production Office Coordinator**.
  - c. Document all safety training using *Production Safety Meeting Report (Form 13)*. Forward copies to the Production Office Coordinator.

#### **Communicate and Troubleshoot:**

- 1. Inspect all work sites to be sure they are free from recognized hazards and correct any that are found.
- 2. See to it that appropriate safety equipment has been provided, inspected and is in use by the crew (e.g. ear plugs, equipment safety guards, harnesses, respirators, safety glasses, etc.).
- 3. Consult with the PM to resolve safety concerns such as special effects, stunts or other special hazards.
- 4. Enforce safe working procedures.
- 5. Encourage the reporting of hazards by crew members.
- 6. Resolve crew safety issues.
- 7. Correct hazards that have been discovered at the site (e.g. blocked exits, trip and fall hazards, faulty equipment etc.)

#### **Coordinate Response to Accidents and Emergencies:**

- 1. Respond to all work site emergencies and accidents affecting the crew.
- 2. Summon emergency medical assistance immediately (Paramedic, Fire Department, Police, etc.)
- 3. Notify the PM, First AD, or Construction Coordinator and the Production Safety Representative.
- 4. Clear the area and protect the crew from further injury (e.g. remove equipment from service, post warning signs, arrange further training.)
- 5. Preserve evidence for further investigation.
