Safety Program Information for Key Department Heads

The following information is for your specific position and is provided to help you understand your part in your Production's **Occupational Health and Safety Program**.

Responsibilities of Key Department Heads

The Department Heads/Supervisors are responsible for supervising, training, performing periodic inspections, and ensuring their crews compliance with all applicable safety rules and regulations.

Production Start-Up

- Visit www.canadianproduction.com to familiarize yourself with the safety information available, (AMPTP and Actsafe Safety Bulletins, Tool Box Talks, etc.) and to read the Production Safety Manual.
- 2. Conduct or arrange safety training for your crew who have not been trained. If you need help determining training requirements or arranging training, call the **Production Safety Representative.**
- 3. Conduct and document safety meetings for your crew prior to starting the first day of work at a new site:
 - Designate Supervisors and ensure they have completed Supervisor's Health and Safety
 Awareness Training
 - b. Orient and train Young and New Workers when appropriate.
 - c. Explain the safety program and tell them to visit www.canadianproductions.com.
 - d. Ensure they have received the General Safety Guidelines and signed the acknowledgment form
 - e. Discuss the safety aspects of the day's activities and the particular hazards of the site.
 - f. Discuss elements of the **Emergency Plan**, such as the location of emergency equipment, exits and telephones on all stages and interior set and off-lot locations, and explain emergency procedures such as evacuation plans in case of fire (if not covered by the 1st AD.) The information for this meeting is on the **Emergency Plan Meeting Form**.
 - g. Discuss safety precautions to be followed around any specialized equipment that may pose a potential hazard (e.g. insert car, process trailer, cranes, booms, specialized rigs, etc.)
- 4. Conduct or arrange safety training for your crew who have not been trained:
 - a. Ensure all workers have taken Health and Safety Awareness training
 - b. WHIMIS training for chemical containing products.
 - c. Personal Protective Equipment for eye, ear, respiratory, etc. hazards.
 - d. Fall Protection Training for workers exposed to heights.
 - e. Special tools, equipment, or vehicles used.
 - f. Consult with the Production Safety Representative to determine the specific training needs of your crew.
 - g. Document all training and forward to the Production Office Coordinator.
- 5. Conduct additional safety meetings in the following situations:
 - a. Prior to rigging or testing of any specialized equipment.
 - b. Anytime crew is exposed to a hazard (e.g. special products, pyrotechnics, etc.).
 - c. Anytime new crewmembers join the department.
 - d. Anytime there is a change in location or work site.
 - e. Anytime a new process is introduced (e.g. special foams, chemicals, tools, etc.)
- 6. Distribute safety literature:
 - a. Give the *General Safety Guidelines for Production (Form 1)*; written, orally or posted to all
 those who report directly to the site for hire; such as, casual hires, independent contractors, etc.
 Have all employees sign the *Employee Acknowledgment* and forward them to the *Production*

Office Coordinator

- b. Distribute safety literature on specific hazards to your crew (e.g. appropriate clothing and shoes, aerial platforms, etc.).
- c. Issue special literature if requested by crew members (e.g. material safety data sheets on chemicals, fogs, paints, etc.)
- 7. Document all Occupational Health and Safety Program activities:
 - a. See to it that all safety meetings held throughout the day with crew are noted on the daily Production Report, including new arrival, rigging, testing and changing work site meetings.
 - Any bulletins or special correspondence are to be forwarded to the **Production Office** Coordinator.
 - c. Document all safety training using *Production Safety Meeting Report (Form 13).* Forward copies to the Production Office Coordinator.

Communicate and Troubleshoot:

- 1. Inspect all work sites to be sure they are free from recognized hazards and correct any that are found.
- 2. See to it that appropriate safety equipment has been provided, inspected and is in use by the crew (e.g. ear plugs, equipment safety guards, harnesses, respirators, safety glasses, etc.).
- 3. Consult with the PM to resolve safety concerns such as special effects, stunts or other special hazards.
- 4. Enforce safe working procedures.
- 5. Encourage the reporting of hazards by crew members.
- 6. Resolve crew safety issues.
- 7. Correct hazards that have been discovered at the site (e.g. blocked exits, trip and fall hazards, faulty equipment etc.)

Coordinate Response to Accidents and Emergencies:

- 1. Respond to all work site emergencies and accidents affecting the crew.
- 2. Summon emergency medical assistance immediately (Paramedic, Fire Department, Police, etc.)
- 3. Notify the PM, First AD, or Construction Coordinator and the Production Safety Representative.
- 4. Clear the area and protect the crew from further injury (e.g. remove equipment from service, post warning signs, arrange further training.)
- 5. Preserve evidence for further investigation.
