

## Safety Responsibilities PRODUCTION OFFICE COORDINATOR

### **Safety Program Information for Production Office Coordinator (POC)**

The following information is for your specific position and is provided to help you understand your part in your show's Occupational Health and Safety Program.

### **Responsibilities of the Production Office Coordinator**

The Production Office Coordinator will maintain a library of safety information including copies of all safety program documentation as described in the Occupational Health and Safety Program for Production. It is the POC's responsibility, along with the Production Manager (PM), to see to it that all necessary OHSP documentation (forms, certifications, etc.) are completed in a timely manner and forwarded to the Production Executive, Production Attorney and the **Production Safety Representative** as necessary

### **Training Documents**

1. All productions are required to employ workers knowledgeable in the work they will be asked to do. Because there are many different ways proficiency can be documented, different Department Heads will submit varying evidence of training. All of it is important.
2. Check that Departments operating heavy equipment are turning in copies of Certification for each piece of equipment they will be asked to drive (e.g. Forklift Safety Card, Aerial Platform Training, powder-actuated tool operator's "Hilti Card," etc.) Keep them on file.
3. Ensure that proof of **Worker Health and Safety Awareness** and **Supervisor Health and Safety Awareness** training has been submitted by department heads for all workers
4. Some Department Heads will be sending copies of Safety Meetings they have conducted; others will send signed copies of Codes of Safe Practices (CSP's). Keep them on file.
5. Most importantly, make sure a signed **Acknowledgment Form** for receipt of **(Form 1) General Safety Guidelines for Production** is on file for all employees from all departments.
6. If you need help determining training requirements, or arranging training, **call the Production Safety Representative**.
