BICYCLES

- Keep your bicycle in good mechanical condition (tires, chain, brakes).
- Obey all traffic rules and signs - always give proper hand signals.
- Walk your bike across busy intersections.
- Always ride with the traffic - as close as possible to the right side of the road.
- Be sure the roadway is clear before entering.
- Beware of Production vehicles and silent electric carts.
- Always ride single file and watch for opening car doors.
- Bicycles are built to carry one person. Never ride with two.
- Yield right of way to pedestrians and golf carts.
- Never carry heavy loads or items which reduce your maneuverability on your bicycles.
- When carrying a load, it is the rider's responsibility to be sure the load is stable and will not fall off the bicycle while it is moving. Loads will be balanced, braced and secured to prevent tipping and falling.
- Riders should not attempt to tow other materials alongside or behind a bicycle (for example, with a rope, chain or by hand).
- Riders are not allowed to "hitch rides" alongside other moving vehicles, such as golf carts, forklifts, etc.
- Wear a bicycle helmet. California law requires helmets for riders under 18 (California Vehicle Code section 21212), and Warner Bros. recommends them for all riders.
